in collaboration with

EUROPE IN CRISIS

The rise of the Power of Central and Eastern European Countries?

REPORT OF THE SESSION

PRAGUE (Czech Republic)

17 to 22 September 2023

From 17 to 22 September 2023, the Summer University of the Czech Republic was organised successfully once more in Prague in collaboration with CEVRO Institute. It was the opportunity to develop the topic “The Rise of Power in Central and Eastern European Countries”.

15 candidates took part in the programme, partly from Czech Republic selected by CEVRO and partly from many different countries, selected by CIFE and by the partner. They represented 12 different nationalities.

All the candidates who successfully completed the programme received a certificate of participation. Additionally, students who did some extra work after the session acquired ECTS credits.

At the end of the session, we also asked our students to fill out an evaluation questionnaire and comment upon our programme. Their observations, which is a great help for us and for the continuation of the programme, showed a great satisfaction on the part of a very large majority.

We hope that this session in Prague will be a very nice memory for everyone and we warmly thank our partner, CEVRO Institute, for this friendly collaboration.

All participants were very positive about the programme. Large debates were proposed after each presentation to make the session interactive and allow the candidates to have answers to all of their questions.
